IMAGINE IF STEWARDSHIP AND GENEROSITY WEREN'T AN EVENT, A TRANSACTION, A MOMENT IN TIME...

What if it was a lifestyle for your congregation
A seed you could grow and sustain
It may feel new and different, even a little uncomfortable at first
But we know what is possible in your church
Start somewhere. Generosity begins today

CCS inspired us and dared us to achieve what we would never have tried, if left to our own devices. We gained the confidence to believe we could succeed.

WHO WE ARE

We are people connected by a passion for the potential in churches. We believe that real, sustainable generosity is necessary for the mission of the Church. And we believe it is possible, that true leadership can extend your ministry beyond the obstacles faced today – improving individuals and families in your congregation and beyond. **We've seen it with our clients, We live it ourselves, We dare to imagine bold possibilities.**

Renewal

**We are all of the above. And so much more.
We are the only ones who do what we do, the way we do it.**

A capital campaign in a congregation is more than a fundraising effort. It is a spiritual journey and a leap of faith. CCS understood that. They also understood the notion of stewardship, which helped us link requests for our special capital project to the ongoing financial needs of the congregation.
